[Load AK ISNAP data](#)[Form Instructions](#)

1. Station Reporting:

2. Location / City & Zip code:

3. Date & Time: [Click for Date/Time](#)

4. POWER STATUS:

- Y - YES** . Fully functional commercial power in the county except for routine maintenance. (Green)
- R – Rolling Blackout. Planned outages with little warning intended to ease stress on the power grid.
- P – Partial Blackout. Unplanned interruption of commercial power only in parts of the county.
- B – Brownout. Reduction in voltage used as an emergency measure to prevent system failure.
- N – No. Blackout. Complete unplanned commercial power interruption in the county.

5. WATER STATUS:

- Y - YES**. Fully functional water service in the county except for routine maintenance. (Green)
- P – Partial. Unplanned interruption of water service only in parts of the county.
- C – Contaminated. Water service is available but contaminated and should not be used.
- N – No. Complete unplanned water service interruption.

6. SANITATION STATUS:

- Y - YES**. Fully functioning sanitation service in the county except for routine maintenance.
- P – Partial. Unplanned interruption of sanitation service only in part of the county.
- N – No. Complete unplanned sanitation service interruption.

7. MEDICAL FACILITY STATUS:

- Y - YES**. Fully functioning and staffed hospitals and clinics with spare capacity available.
- P – Partial. Unplanned decrease of capacity in the county due to loss of facilities.
- R – Partial due to personnel. Unplanned decrease in capacity due to loss of personnel.
- F – Full. Facilities are at maximum capacity and can't handle new patients.
- N – No. Not available. Medical facilities are unusable due to loss of personnel or infrastructure.

8. COMMUNICATIONS STATUS:

- Y - YES**. Fully functioning commercial and civil government local communications.
- P – Partial. Commercial communications out but local government communications operational.
- N – No. Complete loss of local commercial and government communications.

9. TRANSPORTATION STATUS:

- Y - YES**. Fully functioning mass transit, roads, and rail systems except for routine maintenance.
- P – Partial. Unplanned interruption in service or loss of roads/rail in parts of the county.
- N – No. Complete loss of mass transit systems. Road remain available except for those damaged.

10. SOURCE:

- C – Commercial Broadcast. This includes sources such as local radio and TV news.
- E – EAS. Government Broadcast. Information received from EAS/IPAWS over any media.
- G – Civil government or public officials other than EAS/IPAWS such as from an EOC.
- A – Amateur. Information originated by amateur radio operators and not validated or coordinated by public officials.
- R – Relay. Information originated by civil government that are subsequently relayed through amateur radio.

11. REMARKS:

<p><i>Amateur Radio Emergency Service - ARRL</i> PUBLIC SERVICE ACTIVITY REPORT FSD-157 1/04 VER 8.1</p>		
<p>This is a modified ARES form for radio delivery by Express users. Text portion of message is formatted and easy to read for normal email.</p>		
<p>Amateur Radio donates thousands of staff hours of supplementary public service communications in civil emergencies, official drills and events such as parades and marathons each year. Such events show Amateur Radio in its best light, and it is critically important that ARRL bring documentation of this public service work to the attention of the Congress, the FCC, and other public officials. Your information below is an important addition to the record. Please complete and return this form to the Public Service Branch at ARRL Headquarters.</p> <p style="text-align: center;"><u>Attach photos of amateurs in action, newspaper clippings, or other data if available</u></p>		
<p>1. Nature of Activity (Select One)</p> <p>Communications Emergency Alert Special Exercise Test or Drill</p>	<p>Communications Emergency - Amateurs supplied communications to replace or supplement normal communications means. Alert - Amateurs were deployed for emergency communications, but emergency situation did not develop. Special exercise - Amateurs supplied communications for a parade, race, etc. Test or drill - A training activity in which amateurs participated.</p>	
2. Brief Description of Activity:		
3. Places or Areas Involved:		
4. Number of Amateurs Participating:		
5. Event Start Date/Time:	6. Event End Date/Time:	
7. Duration of Event in Hours:	8. Total Person-Hours:	9. Number of Repeaters Used:

CENTRO INTERNAZIONALE RADIO MEDICO (C.I.R.M.)
 (Medical Assistance Form)
 The International Radio Medical Centre

NAME :	INTERNATIONAL CALL SIGN :	
FLAG STATE :	VESSEL TYPE: <small>Select</small>	
POSITION OF VESSEL :	PORT OF DEPARTURE :	
PORT OF DESTINATION :	EXPECTED DAYS TO DESTINATION :	
SEAFARER INFORMATION		
NAME AND SURNAME	DATE OF BIRTH :	RANK : <small>Select</small>
NATIONALITY	SEX <small>MALE</small>	
PERSONAL MEDICAL HISTORY		
Mention any medical problem of the patient with special reference to drug or other allergies, chronic illness, medications etc.		
ANY OTHER RELEVANT INFORMATION		
COMPLAINT DESCRIPTION		
Describe the symptoms, location of pain, associated symptoms etc. If an accident mention how & where the accident took place?		
VITALS		
BLOOD PRESSURE	PULSE RATE	BODY TEMPERATURE
WEIGHT IN KGS	HEIGHT IN CM	RESP-RATE MIN

Keep the medicine chest up to date. Ensure compliance with your Flag State. If possible do not administer any medicines before consulting C.I.R.M or qualified doctor.

The international Radio Medical Center (C.I.R.M) is the Italian Telemedical Maritime Assistance Service (TMAS). Our Mission is to provide round the clock free telemedical assistance to patients onboard ships flying any flag of any nationality all over the world. We suggest contacting C.I.R.M promptly in all cases of ill or injured persons, possibly before any treatment. This to avoid complication of pathologies or modifications in their course by inappropriate treatment. A Quick way to get in touch with us is to fill out the form and email it to us at telesoccorso@cirm.it. Alternatively you can call us at +39 06 59290263.

Informacion Adicional

II.MUY DEBIL.- Es sentido bastante notable por las personas en interiores, especialmente en los pisos superiores de los edificios. Mucha gente no lo reconoce como un temblor. Automoviles detenidos pueden oscilar ligeramente. La vibracion es similar al paso de un Camion.

III. DEBIL.- Sentido adentro por muchos, al aire libre por pocos durante el día. Por la noche, algunos son despertados por platos, ventanas, puertas perturbadas; Las paredes hacen sonidos al agrietarse. Sensación como si un camion pesado golpeará el edificio. Automóviles detenidos oscilan notablemente.

IV. LIGERO.- Sentido por casi todo el mundo; Muchos son despertados. Algunos platos y ventanas rotas. Objetos inestables volcados. Sentidos por todos, muchos asustados. Algunos muebles pesados movidos; Algunos pedazos de yeso caído. Daño leve.

V. MODERADO.- Daños insignificantes en edificios bien diseñados y construidos; Daño leve a moderado en estructuras comunes bien construidas; Considerable daño en estructuras mal construidas o mal diseñadas; Algunas chimeneas rotas.

VI. FUERTE.- Daño ligero en estructuras especialmente diseñadas; Daños considerables en edificaciones comunes con colapso parcial. Daño grande en estructuras mal construidas. Caída de chimeneas, apilados de fábricas, columnas, monumentos, paredes. Muebles pesados volcados.

VII. MUY FUERTE.- Daños considerables en estructuras especialmente diseñadas; Estructuras de bastidor bien diseñadas tiradas de plomada. Daños grandes en edificios sustanciales, con colapso parcial. Los edificios se desplazaron de las cimentaciones.

VIII. SEVERO.- Algunas estructuras de madera bien construidas, destruidas; La mayoría de las estructuras de mampostería y armazón con cimientos, destruidas. Rieles doblados.

IX. VIOLENTO.- Pocas estructuras de albañilería, si es que ninguna, permanecen de pie. Puentes destruidos. Los rieles se doblaron mucho..

X. **EXTREMO.**- Daño total. Las líneas de vista y nivel están distorsionadas. Objetos arrojados al aire.

****NOTICE****

Position Reports can only be sent using a base call sign.

You are about to SUBMIT with a tactical address: `[[MsgSender]]`, and it will not be accepted by the CMS.

Close form and restart under your base call OR you may go ahead and complete the form, then follow instructions below;

Submit when done, select your base call `[[CallSign]]` using the From: menu in the message window, now Post to the Outbox.

In a few minutes reconnect to the CMS and you will receive a status message on your position, if NO status report then you used a tactical address by error.

GPS Decimal Position Report for Winlink - Decimal Converter

Winlink

<p>Date/Time Click for current UTC Time</p>	<p>External data if GPS is connected:</p>
<p>Manually Enter your Decimal Degrees: <i>Click any where to use</i></p> <p><i>(If no connected GPS) Example: 38.5567, -121.7932 (note the comma)</i></p> <p>Comment: Limited to 148 characters</p>	<p><i>Your attached GPS device needs to be configured and working in Winlink Express.</i></p>
<p>HINT: You will be prompted to save your Position Data BEFORE you Submit. Save the data if you want to DELETE the sent position later. To do so, just use Load Position Data and change the Comment box to DELETE in all caps. Now Submit this new report. It will be deleted from all Winlink System lists and maps, but not APRS FI.</p>	

[Copy/Paste Current Coordinates converted for use with other mapping programs:](#)

<p>Position in Decimal Degrees:</p>	<p>Position in Degrees and Decimal Minutes</p>
<p>Position Grid Square</p>	<p>Position NATO/MGRS (Military Grid Reference System)</p> <p style="text-align: right;">Format with spaces</p>

THE WINLINK CMS DOES NOT ACCEPT A TACTICAL ADDRESS, ONLY BASE CALLS. - APRS FI KEEPS POSITION REPORTS & COMMENTS FOR 2 YEARS.

HTML Form Features Information 3/12/19

HTML forms (templates) have new features added. Some forms have them all, some do not.

Load / Save

This allows you to save your form data as a text file with the form name and saved date/time as the file name. You can change the file name to whatever you wish. This will allow you to re-load data that you have already entered. It does load previous date/times, etc, so change as needed prior to submitting. This feature is much like using Firefox and its add-on called Formlet. But now you can use any browser.

Custom Template Title

[Click to add your agency or group](#)

If in the upper left of the form there is a button labeled SETUP, you can use it to set the form title. This will allow you to customize the template's title name for your group, agency, whatever. It will stay as such until you change it, or the form is updated via the internet.

Spreadsheet Import

Some forms will allow you to import data direct into the form from a spreadsheet. The spreadsheet you create must match the templates field names and sizes.

Copy and Paste Data From Spreadsheet

Copy the data from the spreadsheet and paste in box below, then click "Parse Data"
Ensure fields match and entered data does not exceed field lengths, or printed HTML may miss some data.

Export Data to Spreadsheet Format

A few forms have an Export for spreadsheet button.

The data in the form will be exported as a .xls File with the spreadsheet column header information preceding the data. The format is TAB delimited.

Programs such as Excel and Open Office/Libre Office can easily read the fil

Clear Activity Log

If present, it allows you to just reset the logged information and not have to re-type all the header info.

[For any questions about the form features contact Greg KG6SJT \(kg6sjt@gmail.com\) WDT Primary Form Writer.](#)

We hope the new changes will find utility and save time on events.

Adios Mike XE2/N6KZB WDT

HURRICANE REPORT

Fill in as much information as possible. This form will send the message formatted as plain text.

17									
18									
19									

The convention calls for frequency lists to show 4 digits after the decimal place, followed by either an N or a W, depending on whether the frequency is narrow or wide band. Mode A or D indicates analog or digital, M indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

Oregon State Resource Request
Request for State Resources

Winlink Status - Select Status

Title – Request for State Resources

4. OERS Incident Number- (4 digit year - 4 digit number)

5. Request Date - (auto-generated but editable, format MMDDYY)

6. Request Time (auto-generated, editable, Military 4 digit no delimiters , ie. 1345)

7. Verbal Request-

8. Requesting Name - Person entering the request should be the EM or delegated by the EM.

9. Winlink Call Sign- (Call Sign of originating station)

10. Requestors Title - (Title or Position of Requestor)

11. Jurisdiction- Select JURISDICTION

12. Requesting Organization Contact Information-
Contact information in the organization that needs the resource (this is not necessarily the tribe/county sending the request).

13. Requesting Priority- ROUTINE

14. Request Status- DRAFT

15. Requesting Organization-
Name of Organization requesting the resource (this is not necessarily the tribe/county sending the request).

Resource Request (Use one request per resource type)

16. Size- Unit of issue

17. Amount/Quantity-

18. Report to: Location-
An address where the resource is to be delivered.

19. Report to: Point of Contact- Name of contact at the Report to: location.

20. Type of Resources - Assistance

21. Request Summary-

22. Date Required at Site- editable MMDDYY

23. Time Required at Site- (4-digit Military time, no delimiter, ie. 1455)

24. Duration of Assignment -

25. Other Mission Critical Information -

26. Operating Environment/Conditions -
This will tell responding personnel what will be required during the response

27. Required Licenses, Credentials, etc.-
For example is an electrician's license required for the installation?

ICS Forms Modification Information 10/30/2019

Excerpt from NIMS FEMA ICS booklet

ICS Forms are designed to serve all-hazards, cross-discipline needs for incident management across the Nation. These forms include the essential data elements for the ICS process they address, and create a foundation within ICS for complex incident management activities.

However, the flexibility and scalability of ICS - NIMS should allow for needs outside this foundation, so the following are possible mechanisms to add to, extend, or adapt ICS Forms when needed.

Because the goal is to have a consistent nationwide approach to incident management, jurisdictions and disciplines are encouraged to use the ICS Forms as they are presented – unless the form does meet an organization's particular incident management needs for a unique reason. If changes are needed, the focus on essential information elements should remain, and as such the spirit and intent of particular fields or "information elements" on the ICS Forms should remain intact to maintain consistency if the forms are altered. Modifications should be clearly indicated as deviations from or additions to the ICS Forms. The following approaches may be used to meet any unique needs.

ICS Form Adaptation

When agencies and organizations require specialized forms or information for particular kinds of incidents, events, or disciplines, it may be beneficial to utilize the essential data elements from a particular ICS Form to create a more localized or field-specific form. When this occurs, organizations are encouraged to use the relevant essential data elements and ICS Form number, but to clarify that the altered form is a specific organizational adaptation of the form. For example, an altered form should clearly indicate in the title that it has been changed to meet a specific need, such as "ICS 215A, Hazard Risk Analysis Worksheet, Adapted for Story County Hazmat Program."

Extending ICS Form Fields

Particular fields on an ICS Form may need to include further breakouts or additional related elements. If such additions are needed, the form itself should be clearly labeled as an adapted form (see above), and the additional sub-field numbers should be clearly labeled as unique to the adapted form. Letters or other indicators may be used to label the new sub-fields (if the block does not already include sub-fields).

Winlink Express Forms Modifications

Winlink Template modifications are done not only to meet a served agency or groups need, but to operate within the constraints of radio delivery and Winlink Express software. As such they can differ from the printed form and have HTML and scripted features to assist the user. Forms are designed to be rendered as HTML from Express to Express. All info is also sent as plain text properly formatted in the message body, for those that are not using Winlink Express.

When printing some forms may print better in Landscape. Suggest testing before hand if possible.

An actual written signature block is not possible since these forms are primarily for radio delivery, the typed in name will suffice as such if used.

Mike Burton XE2/N6KZB *Winlink Forms Manager*

Greg Kruckewitt KJ6SJT *Primary Forms Writer*

**** Remember to include units with readings: (uR/hr = micro R/hr, mR/hr = milli R/hr)**

Version 1.0

Earthquake: Did You Feel it?

¿Lo sentiste? (DYFI) recopila información de personas que sintieron un terremoto y ayuda a crear mapas que muestran lo que experimentaron las personas y el alcance del daño, esta información se envía al USGS.

[Haga clic aquí para ir al sitio web de USGS \(si tiene Internet\)..](#)

[¿Qué es DYFI y más?](#)

>>>> Este informe de terremoto es un **EJERCICIO** **EVENTO REAL**

¿Sintió usted el temblor? (REQUERIDO)

Sí No

Horario del Terremoto: (REQUERIDO) Formato de fecha y hora local: 1/31/2020 09:15

Fecha: Hora: es Haga clic en el campo de fecha u hora para modificar

(Al abrir este formulario se inserta su fecha y hora actual, puede cambiar manualmente haciendo clic en el campo)

¿Tu localización cuando ocurrió el sismo?: (REQUERIDO)

<-No ingrese las coordenadas GPS aquí.

Coordenadas GPS opcionales en el siguiente formato: 32.504892 -116.982466 LAT LON

Si tiene un dispositivo GPS conectado Winlink Express, se ingresará el LAT / LON en grados decimales.

El resto de este formulario es opcional. Si indicó NO, no responda las preguntas a continuación. Si indicó SÍ, las respuestas a continuación ayudarán a crear información de intensidad para el USGS.

¿Dónde estabas durante el terremoto?

No especificado Dentro de un edificio Afuera de un edificio
En un vehículo detenido En un vehículo en movimiento
Otro describir:

¿Estaba dormido?

No especificado No No me despertó Me despertó

¿Otras personas cerca de usted lo sintieron?

No especificado Otros no lo sintieron Algunos lo sintieron, la mayoría no La mayoría lo sintieron Todos/casi todos lo sintieron

¿Cómo describirías el movimiento?

No especificado No se sintió Débil Suave
Moderada Fuerte Violenta

¿Cómo reaccionó usted?

No especificado Ninguna reacción/no lo sentí Muy poca reacción Sorprendido
Algo asustado Muy asustado Asustado en lo extremo

¿Cómo respondió?

No especificado

Me agaché y me cubrí

Otro describir:

Ninguna respuesta

Corrí afuera

Me moví a la puerta

¿Era difícil pararse o caminar?

No especificado

No

Sí

¿Observó movimiento en objetos colgantes y/o puertas?

No especificado

No

Sí, movimiento leve

Sí, movimiento fuerte

¿Escuchó algún ruido extraño?

No especificado

No

Sí, ruido leve

Sí, ruido fuerte

¿Se movieron ó se cayeron objetos de las repisas?

No especificado

Se movieron mucho

Casi todo se cayó

No

Algunos se voltearon ó se cayeron

Se movieron un poco

Muchos se voltearon ó se cayeron

¿Se movieron o se cayeron los cuadros colgados en las paredes?

No especificado

No

Sí, pero no se cayeron

Sí, y algunos se cayeron

¿Alguno de sus muebles ó electrodomésticos se movio, volteó ó quedó fuera de su sitio original?

No especificado

No

Sí

¿Se afectó algún electrodoméstico pesado (refrigerador ó estufa)?

No especificado

Sí, el electrodoméstico se movió

varias pulgadas

No

Sí, el electrodoméstico se movió

más de un pie (30 cm)

Sí, alguno de sus contenidos se cayeron

Sí, el electrodoméstico se cayó

¿Observó daños en las paredes ó cercas?

No especificado

Sí, algunas se cayeron parcialmente

No

Sí, algunas se cayeron por completo

Sí, observe algunas grietas

¿Se observó daños en edificios ú otras estructuras? (se permite selecciones múltiples)

Ningún daño apreciable a simple vista

Varias grietas grandes en las paredes

Una ó varias ventanas dañadas

Una chimenea vieja sufrió daños severos ó se derrumbó

Se separaron de la estructura el balcón, marquesina y/ó cualquier otra área adicional

Grietas pequeñas en las paredes

Losas de techo/paredes y/o luces se cayeron

Varias ventanas dañadas ó rotas

Una chimenea moderna sufrió daños severos ó se derrumbó

La casa ó estructura se movió por completo de su cimiento/base

Algunas grietas grandes en las paredes

Grietas en la chimenea

Ladrillos y/o bloques se cayeron de las paredes

Paredes exteriores se inclinaron ó cayeron por completo

Comentarios adicionales: *(Max 400 caracteres)*

Earthquake: Did You Feel it?

Did You Feel It? (DYFI) collects information from people who felt an earthquake and helps create maps that show what people experienced and the extent of damage, this information is sent to the USGS.

[Click here to go to the USGS Web Site if you have Internet.](#)

[What is DYFI & More](#)

>>>> This Earthquake report is an Exercise **REAL EVENT**

Did you feel it? (REQUIRED)

Yes No

Time of earthquake: (REQUIRED) Local Date and Time Format: 1/31/2020 09:15

Date: Time: Click Date or Time Field to Modify

(Opening this form inserts your current Date & Time, you may manually change by click in the field)

Your location - street address when the earthquake occurred: (REQUIRED)

<- Do not enter GPS coordinates here.

Optional GPS coordinates in the following format: **32.504892 -116.982466** LAT LON

If you have a Winlink Express connected GPS device, the LAT/LON in decimal degrees will be entered for you.

The remainder of this form is optional. If you indicated NO, then do not answer the questions below. If you indicated YES, then the answers below will help to create intensity info for the USGS.

What was your situation during the earthquake?

Not specified	Inside a building	Outside a building
In a stopped vehicle	In a moving vehicle	
Other Describe:		

Were you asleep?

Not specified No Slept through it Woke up

Did others nearby feel it?

Not specified No others felt it Some felt it, most did not Most felt it Everyone/almost everyone felt it

How would you describe the shaking?

Not specified	Not felt	Weak
Moderate	Strong	Violent
		Mild

How did you react?

Not specified	No reaction/not felt	Very little reaction	Excitement
Somewhat frightened	Very frightened	Extremely frightened	

How did you respond?

Not specified
Dropped and covered
Other Describe:

Took no action
Ran outside

Moved to doorway

Was it difficult to stand and/or walk?

Not specified No Yes

Did you notice any swinging of doors or other free-hanging objects?

Not specified No Yes, slight swinging Yes, violent swinging

Did you hear creaking or other noises?

Not specified No Yes, slight noise Yes, loud noise

Did objects rattle, topple over, or fall off shelves?

Not specified No Rattled slightly
Rattled loudly A few toppled or fell off Many fell off
Nearly everything fell off

Did pictures on walls move or get knocked askew?

Not specified No Yes, but did not fall Yes, and some fell

Did any furniture or appliances slide, topple over, or become displaced?

Not specified No Yes

Was a heavy appliance (like a refrigerator or range) affected?

Not specified No Yes, some contents fell out
Yes, shifted by inches Yes, shifted by a foot or more Yes, overturned

Were free-standing walls or fences damaged?

Not specified No Yes, some were cracked
Yes, some partially fell Yes, some fell completely

Was there any damage to the building? (multiple selections OK)

No damage	Hairline cracks in walls	A few large cracks in walls
Many large cracks in walls	Ceiling tiles or lighting fixtures fell	Cracks in chimney
One or several cracked windows	Many windows cracked or some broken out	Masonry fell from block or brick wall(s)
Old chimney, major damage or fell down	Modern chimney, major damage or fell down	Side walls tilted over/collapsed completely
Separation of porch, balcony, or other addition from building	Building permanently shifted over foundation

Virginia Resource Request [Form Instructions](#)

Load VA Resource Request data

Event Name: WebEOC incident name (ex.: VDEM – 2018-04-15 Severe Weather)

Mission Number: Leave this field blank in Winlink entry form

Requesting Agency/Locality Information

Note: Authorized Representatives are those individuals within a locality or state agency who have written authority to incur cost or enter into contractual agreements on behalf of agency/locality.

Request Originator:	Person typing this request
Initial Date/Time:	Click for Date/Time
State Agency/Locality:	Enter name of agency or locality
Authorized Representative Name:	Authorized Representative Name
Authorized Representative Title:	Authorized Representative Title
Auth. Representative Approval:	<input type="checkbox"/> I am authorized by my jurisdiction/agency to obligate funds for this request.

Request for Assistance Information

1. What CAPABILITY does your agency require and what will the resource be doing (scope of work)?

Required capabilities of this resource

2. Please specify the SIZE and AMOUNT of the resource required to meet this capability requested:

Size:	Size of resource needed
Amount:	Quantity of resource needed

3. Where does this resource need to be delivered to? Please provide address of LOCATION needed.

Address of Location Needed:	Address where this resource should be delivered
Latitude/Longitude:	Coordinates where this resource should be delivered

4. TIME requirements:

Arrival Date/Time:	mm/dd/yyyy, HH:mm resource needed
Work Start Date/Time:	mm/dd/yyyy, HH:mm resource will begin work
Duration of Deployment:	<input checked="" type="radio"/> 24 Hours <input type="radio"/> 48 Hours <input type="radio"/> 72 Hours <input type="radio"/> Other
If Other, Specify:	Complete this field only if 'Other' selected above

5. What POTENTIAL RESOURCE/FEMA TYPED RESOURCE do you believe could meet this request?

Potential Resource:	Potential Resource/FEMA Typed Resource field
---------------------	--

6. POINT OF CONTACT to call about this request:

Note: Points of contact are those individuals resource providers can call and ask questions about the request, get delivery locations, etc. This person may not be the authorized representative.

White List and Winlink System Spam Control 11/25/2019

Winlink SPAM Control Options (Without Internet via radio-only)

From Winlink Web Site.

The WL2K White list mail filter is an account feature in all Winlink accounts. It is a mechanism for the positive control of spam from Internet accounts sending mail **inbound** to users of the Winlink system. *Winlink user-to-Winlink user mail is not subject to its action.* Here is how it works:

To be delivered to a **Winlink user**, ANY MESSAGE FROM THE INTERNET must have a sender's 'from' address or domain name listed in the recipient's white list, OR, the sender must include the character sequence `//WL2K` in the subject line of the message. If the `//WL2K` character string is found in the subject line, the message will bypass filtering and be forwarded to all of the Winlink addresses in the message 'to' and 'cc' lines. Messages inbound from the Internet which do not pass these rules are not delivered and are bounced back to the sender with a service message.

Example:

Subject://WL2K (then any other normal subject content to follow).

There are certain exceptions: Messages from the sail docs.com, sail mail.com, and certain other domains will be accepted unconditionally except where a recipient specifically blocks that domain name in their white list.

How does an address get added to my white list?

1. Each message you send from your Winlink account to a recipient at an Internet E-mail address will be automatically recorded in your White list.
2. You may send a special message to the SYSTEM, giving it instructions for changes to your white list. (See below).

How to manage your white list via Winlink mail messages: For use when you are radio-only sans Internet.

Changes are made by sending special messages containing instructions to the system, outlined below, one line per individual instruction:

From your @Winlink account, send a message as follows:

To: SYSTEM@winlink.org

Subject: WHITE LIST

[In the message body, the following commands are available.]

LIST: [will return a list of all white list entries]

ACCEPT: name@somewhere.com

[will allow messages from name@somewhere.com to be accepted and delivered to you. You may send multiple lines with any command, each containing one e-mail address.

REJECT: name@somewhere.com

[will reject any messages from name@somewhere.com. You may send multiple lines, each containing one e-mail address.

DELETE: name@somewhere.com

[will remove name@somewhere.com from your White list. You may send multiple lines, each containing one e-mail address per line.

Addresses without an "@" will be treated as "domain names". For example, if "ACCEPT: arrl.org" were entered, then any message bearing any address using that domain (arrl.org) will be accepted.

Examples;

[Suggestion. Send this first, and retrieve the reply containing your list as the system currently has it. Use it as a reference to modify your list with further system messages.]

TO: SYSTEM@winlink.org

Subject: WHITE LIST

In message body:

=====

List:

TO: SYSTEM@winlink.org

Subject: WHITE LIST

In message body:

=====

Accept: Joe@somewhere.com
